### CURRENT ASSIGNMENT ✖

**G5 Mission 4:** Multiply and Divide Fractions and Decimals  
**Topic G:** Division of Fractions and Decimal Fractions  
Lesson started: Thu, Feb 13, 2020

**Lesson 29: Dividing Decimals Reasonably**  
Connect division by a unit fraction to division by 1 tenth and 1 hundredth.

**Sprint Alert** !  
**Tower Alerts** 2 !

#### A COMPREHENSIVE REPORT

Monitor a student's progress by logging in to review Student Reports. A print option is available for convenient sharing.

#### CURRENT ASSIGNMENT

Check that a student is working on the correct assignment in "Next Up" on their home page. If a student has alerts on the current lesson, they will appear here. Click these alerts to view details.

#### LESSONS COMPLETED

See that individual students are on pace to complete their assigned lessons for the week, the month, and the year. View a break down by grade for a student who is also completing foundational content.

#### BONUS TOTALS

Bonus totals are also noted for students who have additional time for enrichment.

#### STUDENT PROGRESS

Get a complete view of a student's progress through the entire year by monitoring the completion bar. See exactly which lessons and bonuses are completed by clicking on each Mission. View a student's completion of all grades by clicking "Show Other Grades" in the upper right. Drill down into the completion details of each independent digital lesson by clicking the numbered lesson circles.

## IDENTIFY LEARNING PATTERNS

Choose the “Tower Alerts” tab in order to review an individual student’s Tower Alerts for the whole year. The teacher receives a Tower Alert if a student struggles multiple times in the Tower of Power.

## TIMEFRAME FILTERS

Shorter timeframes may be selected in order to view only alerts (and alert totals) from lessons that a student has done recently.

## CONCEPT BREAKDOWN

Explore how the numbers of alerts break down by Missions, Topics, and Lessons, to see if a student is struggling productively, or if they might need to be assigned some foundational lessons.

## COMPLETE OR INCOMPLETE

A *check* denotes that the student has completed a lesson, even if they initially struggled. A *clock* indicates that the student has yet to complete the lesson and may need additional support. Click the alerts to view details.

## MONITOR ACTIVITY

Choose the “All Activity” tab in order to see all the individual activities that a student has completed digitally on Zearn.

## TIME SPENT

Check the total amount of time a student has spent on Zearn this week.

## LESSON ACTIVITIES

When a student completes each activity, it will appear in a row with the date they completed it, the grade level of the content, the lesson it is associated with, and the exact type of activity it is (e.g. Math Chat, Learning Lab, Tower of Power, etc.)

## NUMBER GYM ACTIVITIES

Number Gym activities are completed at the beginning of every lesson in Grades 1-5. These activities are adaptive to each individual student, so they are not associated with a grade.

## ALERTS

If the Tower of Power or Sprint activities have alerts associated with them, they will appear in the final column. Click the alerts to view details.
