Launch Zearn Math
Educators Grades K-5, 6-8

Session Objectives
In this session, participants will study:
✓ Zearn’s approach to math learning,
✓ the components of a Digital Lesson,
✓ how to navigate Zearn’s platform, and
✓ how to successfully implement Zearn Math.

Session Overview
Launch Zearn Math

During this session, participants will:
• deepen their understanding of Zearn Math and the features of their account with an orientation to the platform,
• walk through a Digital Lesson to understand the components and embedded support,
• learn usage recommendations that will drive impact for all students,
• get an overview of essential reports available on Zearn, and
• determine structures and routines to set students up to learn independently.
