Accelerating Impact: Leading with Zearn Math for Grades K-8

Zearn is offering a one-day training session for math focused **Coaches and Instructional Leaders (ILs)** to drive impact in their school communities. During the training, ILs will learn how to deepen their understanding of the Zearn Math Approach to Teaching and Learning and leave with a robust plan for implementing Zearn Math as your Core Curriculum right away.

- **8-hr session**
- Breaks included
- Attended virtually

**Learning Objectives:**

- Evaluate approaches to implementing Zearn Math and explore how to best support teachers to leverage Zearn curriculum, digital resources, and support to inform daily instruction.
- Reflect on usage recommendations that are proven to drive student outcomes.
- Craft and refine a plan to implement Zearn Math as the Core Curriculum in your system or building by:
  - Enhancing understanding of the rotational model proven to unlock deep learning.
  - Exploring Professional Learning materials for educators.
  - Ensuring staff access to digital resources such as on-demand PD.
  - Engaging in classroom-, school-, and system-level reports to drive impact.

**Open registration dates (All times in EST)**

- 7/20 12pm-8pm
- 8/3 9:30am-5:30pm

$400 per Instructional Leader
