

# Accelerate math learning for New York City students

Zearn Math is a top-rated digital math platform that can be used flexibly across instructional times to help all students catch up and move forward in math.

Zearn Math digital lessons help all students access grade-level math learning with built-in differentiated support. Students across the city use Zearn Math to reinforce and deepen the math learning they do with their teacher.

The lessons are interactive, engaging and provide step-by-step scaffolded learning.

GRADE 5 TEACHER, NYC PUBLIC SCHOOLS

## Zearn Math is proven to have transformative results

Research shows students who used Zearn Math grew state math scores 2.5 times more than students who did not use Zearn Math. Students at the lowest level of math achievement who consistently used Zearn are 2-3x more likely to improve their math achievement level.

Impact with Zearn Math is the result of strong implementation. To support educators using Zearn Math, the Zearn team is offering training and implementation support at no cost to districts and schools.
