

Helping All Students Access Grade-Level Math: Using Zearn with Reveal Math K-8

Zearn is a digital learning platform designed to support all students in building a deep, lasting understanding of grade-level math. This guide shows how Zearn works alongside Reveal Math to help every student succeed.

About Zearn: A Daily, Coherent Companion to Your Core Math Curriculum

Zearn is designed to work alongside your core math curriculum every day — reinforcing key ideas through a research-grounded learning progression. Zearn's digital lessons complement and strengthen what you're already teaching, giving every student more opportunities to explore, persevere, and break through in grade-level math.

When learning with Zearn, students:

- Develop both procedural fluency and conceptual understanding, strengthening automaticity with math facts while deepening their grasp of key mathematical ideas.
- Engage with math through a Concrete–Representational–Abstract (CRA) progression, moving from objects and visual models to symbols and equations.
- Receive just-in-time, embedded support that helps them work through challenges while maintaining grade-level rigor.

Key Steps to Effective Zearn Usage

Within each grade, Zearn's digital content is organized into units — called Missions. Each Zearn Mission focuses on a related set of core grade-level math ideas, with lessons intentionally sequenced to build and deepen understanding. Students get the most out of Zearn when their Mission is connected to the concepts they are currently studying in class.

To use Zearn effectively, assign the Mission identified in this guide for your current unit and let students progress through the Mission lesson by lesson, in order, at their own pace. The goal is for students to complete at least three grade-level lessons per week, or 90 over the course of the year. The steps below outline how to put this into practice.

1. At the start of a new unit, assign students to the first lesson of the recommended Mission and let them progress at their own pace — no daily reassignment needed.

2. Set a goal for students to complete three grade-level lessons each week. Protect about 90 minutes of weekly instructional time to make this achievable.

3. Monitor progress during Zearn time and across the week using real-time reports. Use the data to identify students on track to complete three grade-level lessons per week and those who may need additional support.

4. Support and celebrate students by recognizing progress toward weekly goals and providing additional support to help every student continue moving forward.

Kindergarten Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 1: Numbers to 10 (30 lessons)
Unit 2: Numbers to 5 (9 lessons)	<i>Note: When you begin teaching Reveal Math Unit 2, students should continue working through Zearn Mission 1.</i>
Unit 3: Numbers to 10 (12 lessons)	<i>Note: When you begin teaching Reveal Math Unit 3, students should continue working through Zearn Mission 1.</i>
Unit 4: Sort, Classify, and Count Objects (4 lessons)	Mission 2: Two-Dimensional and Three-Dimensional Shapes (8 lessons)
Unit 5: 2-Dimensional Shapes (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 5, students should continue working through Zearn Mission 2.</i>
Unit 6: Understand Addition (5 lessons)	Mission 3: Comparison of Length, Weight, Capacity, and Numbers to 10 (25 lessons)
Unit 7: Understand Subtraction (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 7, students should continue working through Zearn Mission 3.</i>
Unit 8: Addition and Subtraction Strategies (8 lessons)	Mission 4: Number Pairs, Addition and Subtraction to 10 (33 lessons)

Reveal Math	Zearn Math Supporting Digital Content
Unit 9: Numbers 11 to 15 (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 9, students should continue working through Zearn Mission 4.</i>
Unit 10: Numbers 16 to 19 (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 10, students should continue working through Zearn Mission 4.</i>
Unit 11: 3-Dimensional Shapes (6 lessons)	Mission 5: Numbers 10-20 and Counting to 100 (19 lessons)
Unit 12: Count to 100 (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 12, students should continue working through Zearn Mission 5.</i>
Unit 13: Analyze, Compare, and Compose Shapes (6 lessons)	Mission 6: Analyzing, Comparing, and Composing Shapes (6 lessons)
Unit 14: Compare Measurable Attributes (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 14, students should continue working through Zearn Mission 6.</i>

Grade 1 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 1: Add and Subtract Small Numbers (32 lessons)
Unit 2: Number Patterns (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 2, students should continue working through Zearn Mission 1.</i>
Unit 3: Place Value (8 lessons)	<i>Note: When you begin teaching Reveal Math Unit 3, students should continue working through Zearn Mission 1.</i>
Unit 4: Addition within 20: Facts and Strategies (11 lessons)	Mission 2: Meet Place Value (23 lessons)
Unit 5: Subtraction within 20: Facts and Strategies (9 lessons)	<i>Note: When you begin teaching Reveal Math Unit 5, students should continue working through Zearn Mission 2.</i>
Unit 6: Shapes and Solids (6 lessons)	Mission 3: Measure Length (10 lessons)
Unit 7: Meanings of Addition (6 lessons)	Mission 4: Add and Subtract Big Numbers (23 lessons)
Unit 8: Meanings of Subtraction (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 8, students should continue working through Zearn Mission 4.</i>

Reveal Math	Zearn Math Supporting Digital Content
Unit 9: Addition within 100 (8 lessons)	Mission 6: Add and Subtract to 100 (18 lessons)
Unit 10: Compare Using Addition and Subtraction (4 lessons)	<i>Note: When you begin teaching Reveal Math Unit 10, students should continue working through Zearn Mission 6.</i>
Unit 11: Subtraction within 100 (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 11, students should continue working through Zearn Mission 6.</i>
Unit 12: Measurement and Data (10 lessons)	Mission 3: Measure Length (10 lessons)
Unit 13: Equal Shares (5 lessons)	Mission 5: Work with Shapes (13 lessons)

Grade 2 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 1: Add and Subtract Friendly Numbers (8 lessons)
Unit 2: Place Value to 1,000 (5 lessons)	Mission 3: Counting and Place Value (19 lessons)
Unit 3: Patterns within Numbers (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 3, students should continue working through Zearn Mission 3.</i>
Unit 4: Meanings of Addition and Subtraction (10 lessons)	Mission 4: Add, Subtract, and Solve (29 lessons)
Unit 5: Strategies to Fluently Add within 100 (10 lessons)	<i>Note: When you begin teaching Reveal Math Unit 5, students should continue working through Zearn Mission 4.</i>
Unit 6: Strategies to Fluently Subtract within 100 (10 lessons)	Mission 5: Add and Subtract Big Numbers (20 lessons)
Unit 7: Measure and Compare Lengths (11 lessons)	Mission 2: Explore Length (10 lessons)
Unit 8: Measurement: Money and Time (5 lessons)	Mission 6: Equal Groups (16 lessons) Mission 7: Length, Money, and Data (19 lessons) Mission 8: Shapes, Time, and Fractions (12 lessons)

Reveal Math	Zearn Math Supporting Digital Content
	<i>Note: When students complete Zearn Mission 6, they will automatically progress to Zearn Missions 7 and 8—no additional action is needed.</i>
Unit 9: Strategies to Add 3-Digit Numbers (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 9, students should continue working through Zearn Missions 6-8.</i>
Unit 10: Strategies to Subtract 3-Digit Numbers (9 lessons)	<i>Note: When you begin teaching Reveal Math Unit 10, students should continue working through Zearn Missions 6-8.</i>
Unit 11: Data Analysis (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 11, students should continue working through Zearn Missions 6-8.</i>
Unit 12: Geometric Shapes and Equal Shares (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 12, students should continue working through Zearn Missions 6-8.</i>

Grade 3 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 2: Measure It (21 lessons)
Unit 2: Use Place Value to Fluently Add and Subtract within 1,000 (11 lessons)	<i>Note: When you begin teaching Reveal Math Unit 2, students should continue working through Zearn Mission 2.</i>
Unit 3: Multiplication and Division (7 lessons)	Mission 1: Multiply and Divide Friendly Numbers (21 lessons)
Unit 4: Use Patterns to Multiply by 0, 1, 2, 5, and 10 (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 4, students should continue working through Zearn Mission 1.</i>
Unit 5: Use Patterns to Multiply by 3, 4, 6, 7, 8, and 9 (7 lessons)	Mission 3: Multiply and Divide Tricky Numbers (21 lessons)
Unit 6: Connect Area and Multiplication (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 6, students should continue working through Zearn Mission 3.</i>
Unit 7: Fractions (6 lessons)	Mission 5: Fractions as Numbers (29 lessons)
Unit 8: Fraction Equivalence and Comparison (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 8, students should continue working through Zearn Mission 5.</i>

Reveal Math	Zearn Math Supporting Digital Content
Unit 9: Use Multiplication to Divide (9 lessons)	<i>Note: When you begin teaching Reveal Math Unit 9, students should continue working through Zearn Mission 5.</i>
Unit 10: Use Properties and Strategies to Multiply and Divide (6 lessons)	Mission 4: Find the Area (16 lessons)
Unit 11: Perimeter (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 11, students should continue working through Zearn Mission 4.</i>
Unit 12: Measurement and Data (11 lessons)	Mission 6: Display Data (9 lessons)
Unit 13: Describe and Analyze 2-Dimensional Shapes (4 lessons)	Mission 7: Shapes and Measurement (19 lessons)

Grade 4 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 1: Add, Subtract, and Round (18 lessons)
Unit 2: Generalize Place-Value Structure (4 lessons)	<i>Note: When you begin teaching Reveal Math Unit 2, students should continue working through Zearn Mission 1.</i>
Unit 3: Addition and Subtraction Strategies and Algorithms (9 lessons)	<i>Note: When you begin teaching Reveal Math Unit 3, students should continue working through Zearn Mission 1.</i>
Unit 4: Multiplication as Comparison (4 lessons)	Mission 3: Multiply and Divide Big Numbers (34 lessons)
Unit 5: Numbers and Number Patterns (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 5, students should continue working through Zearn Mission 3.</i>
Unit 6: Multiplication Strategies with Multi-Digit Numbers (8 lessons)	<i>Note: When you begin teaching Reveal Math Unit 6, students should continue working through Zearn Mission 3.</i>
Unit 7: Division Strategies with Multi-Digit Dividends and 1-Digit Divisors (8 lessons)	<i>Note: When you begin teaching Reveal Math Unit 7, students should continue working through Zearn Mission 3.</i>
Unit 8: Fraction Equivalence (5 lessons)	Mission 5: Equivalent Fractions (38 lessons)

Reveal Math	Zearn Math Supporting Digital Content
Unit 9: Addition and Subtraction Meanings and Strategies with Fractions (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 9, students should continue working through Zearn Mission 5.</i>
Unit 10: Addition and Subtraction Meanings and Strategies with Mixed Numbers (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 10, students should continue working through Zearn Mission 5.</i>
Unit 11: Multiply Fractions by Whole Numbers (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 11, students should continue working through Zearn Mission 5.</i>
Unit 12: Decimal Fractions (5 lessons)	Mission 6: Decimal Fractions (15 lessons)
Unit 13: Units of Measurement and Data (11 lessons)	Mission 2: Measure and Solve (5 lessons) Mission 7: Multiply and Measure (12 lessons) <i>Zearn Tip: When students complete Zearn Mission 2, assign them to Zearn Mission 7. Midway through Reveal Math Unit 13, assign any students still on Zearn Mission 2 to Mission 7 so they can continue to progress with the class.</i>
Unit 14: Geometric Figures (10 lessons)	Mission 4: Construct Lines, Angles, and Shapes (14 lessons)

Grade 5 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.

Reveal Math	Zearn Math Supporting Digital Content
Unit 1: Math Is... (6 lessons)	Mission 5: Volume, Area, and Shapes (19 lessons)
Unit 2: Volume (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 2, students should continue working through Zearn Mission 5.</i>
Unit 3: Place Value and Number Relationships (5 lessons)	Mission 1: Place Value with Decimal Fractions (16 lessons)
Unit 4: Add and Subtract Decimals (8 lessons)	<i>Note: When you begin teaching Reveal Math Unit 4, students should continue working through Zearn Mission 1.</i>
Unit 5: Multiply Multi-Digit Whole Numbers (7 lessons)	Mission 2: Base Ten Operations (29 lessons)
Unit 6: Multiply Decimals (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 6, students should continue working through Zearn Mission 2.</i>
Unit 7: Divide Whole Numbers (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 7, students should continue working through Zearn Mission 2.</i>
Unit 8: Divide Decimals (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 8, students should continue working through Zearn Mission 2.</i>
Unit 9: Add and Subtract Fractions	Mission 3: Add and Subtract Fractions

Reveal Math	Zearn Math Supporting Digital Content
(9 lessons)	(16 lessons)
Unit 10: Multiply Fractions (9 lessons)	Mission 4: Multiply and Divide Fractions and Decimals (32 lessons)
Unit 11: Divide Fractions (7 lessons)	<i>Note: When you begin teaching Reveal Math Unit 11, students should continue working through Zearn Mission 4.</i>
Unit 12: Measurement and Data (5 lessons)	<i>Note: When you begin teaching Reveal Math Unit 12, students should continue working through Zearn Mission 4.</i>
Unit 13: Geometry (6 lessons)	Mission 6: The Coordinate Plane (24 lessons)
Unit 14: Algebraic Thinking (6 lessons)	<i>Note: When you begin teaching Reveal Math Unit 14, students should continue working through Zearn Mission 6.</i>

Grade 6 Learning progression

This table shows the recommended Zearn Mission for each Reveal Math Unit. Refer to it each time you begin a new Unit to determine which Mission to assign.

Assign students to the first lesson of the recommended Mission and allow them to progress at their own pace. Because assignments are made at the Mission level, all students stay focused on the same grade-level concepts, even as they move through lessons at different speeds. When your class begins a new Unit, assign the next recommended Mission to all students, even if some have not finished their current Mission. Each Mission includes built-in supports that give every student access to new content while staying connected to grade-level learning.
