

State Standards Alignment Minnesota

Zearn Math is a K-8 print and software-based curriculum that transforms the math block to create differentiation and engagement for each student, every day.

Zearn Math curricular materials are largely aligned with the **Minnesota Academic Standards in Mathematics** and can be utilized as the primary curriculum in the math classroom, with minor supplementing from additional resources, to meet all standards. The tables on the following pages describe the alignment for each specific standard.

Key

FULLY ALIGNED

Zearn Math curricular materials are fully aligned to this standard and can be utilized as the primary instructional materials in the math classroom in order to meet the full expectation of this standard.

MOSTLY ALIGNED

Zearn Math curricular resources are mostly aligned to this standard; however, teachers will need to amend instruction to address the part of the standard not covered by Zearn Math. Such amendments should be made within the current Zearn lessons and should not require any additional instructional days.

PARTIALLY ALIGNED

Zearn Math curricular resources are partially aligned to this standard; therefore, it is recommended that teachers use supplemental materials to fully address this specific standard. Additional instructional days may be needed to adequately address this standard.

NOT ALIGNED

Zearn Math curricular resources are not aligned to this standard; therefore, it is recommended that teachers use supplemental materials to fully address this specific standard. Additional instructional days may be needed to adequately address this standard.

¹Zearn Math includes lessons that target K.1.1.2; however, the Zearn Math lessons only go up to 20, not 31. Teachers will need to amend instruction to ensure students master the full intent of K.1.1.2.

²Students should engage with all Zearn Math for K materials in order to master the full intent of K.1.1.3; K Digital Activities include counting backwards, while print materials focus only on counting forwards.

³Zearn Math includes lessons that target K.1.1.5; however, the Zearn Math lessons only go up to 10, not 20. Teachers will need to amend instruction to ensure students master the full intent of K.1.1.5.

⁴Zearn Math includes lessons that target K.2.1.1; however, the Zearn Math lessons focus on number patterns and exclude other patterns such as patterns of sounds and movements. Teachers will need to amend instruction to ensure students master the full intent of K.2.1.1.

⁵Zearn Math includes lessons that target K.3.1.1; however, the Zearn Math lessons do not cover trapezoids. Teachers will need to amend instruction to ensure students master the full intent of K.3.1.1.

³Zearn Math does not include any lessons that help students understand that calculators and other computing technologies often truncate or round numbers. Teachers will need to supplement instruction to ensure students master the full intent of 7.1.2.3.

²Zearn Math includes lessons that target 7.2.1.2; however, the Zearn Math lessons do not include the use of graphing technology to examine what happens to a line when the unit rate is changed. Teachers will need to amend instruction to ensure students master the full intent of 7.2.1.2.

³Zearn Math includes lessons that target 7.3.1.2; however, the Zearn Math lessons do not cover surface area. Teachers will need to amend instruction to ensure students master the full intent of 7.3.1.2.

⁴Zearn Math includes lessons that target 7.4.1.2; however, the Zearn Math lessons do not cover the use of spreadsheets. Teachers will need to amend instruction to ensure students master the full intent of 7.4.1.2.

⁴Zearn Math includes lessons that target 7.4.2.1; however, the Zearn Math lessons do not include circle graphs or the use of spreadsheets or other graphing technology. Teachers will need to supplement instruction to ensure students master the full intent of 7.4.2.1.

Number & Operation

STANDARD	MISSION	TOPICS	ALIGN
8.1.1.1 ¹	8	E	✓
8.1.1.2	8	A, B, C, D, E	✓
8.1.1.3	8	A, B, C, D, E	✓
8.1.1.4	7	B, C	✓
8.1.1.5	7	C, D	✓

¹Zearn Math includes lessons that target 8.1.1.1; however, knowing that the sum of a rational number and an irrational number is irrational and knowing that the product of a non-zero rational number and an irrational number is irrational are both covered in Zearn Math's high school curriculum, which is currently under development. Teachers will need to amend instruction to ensure students master the full intent of 8.1.1.1.

²Zearn Math includes lessons that target 8.2.1.1; however, function notation is covered in Zearn Math's high school curriculum, which is currently under development. Teachers will need to amend instruction to ensure students master the full intent of 8.2.1.1.

³Zearn Math's K-8 curriculum does not cover the content of 8.2.1.4, 8.2.1.5, 8.2.2.4, 8.2.2.5, 8.2.3.1, 8.2.3.2, 8.2.4.6, 8.3.2.1, 8.3.2.2, and 8.3.2.3. The content is covered in Zearn Math's high school curriculum, which is currently under development.

⁴Zearn Math includes lessons that target 8.2.4.2; however, solving for one variable in a multi-variable equation in terms of the other variables is covered in Zearn Math's high school curriculum, which is currently under development. Teachers will need to amend instruction to ensure students master the full intent of 8.2.4.2.

⁵Zearn Math includes lessons that target 8.2.4.3; however, the Zearn Math lessons do not cover point-slope form. Teachers will need to supplement instruction to ensure students master the full intent of 8.2.4.3.
