

State Standards Alignment Texas

Zearn Math is a K-8 print and software-based curriculum that transforms the math block to create differentiation and engagement for each student, every day.

Zearn Math curricular materials are largely aligned with the **Texas Essential Knowledge and Skills for Mathematics (TEKS)** and can be utilized as the primary curriculum in the math classroom, with minor supplementing from additional resources, to meet all standards. The tables on the following pages describe the alignment for each specific standard.

Key

FULLY ALIGNED

Zearn Math curricular materials are fully aligned to this standard and can be utilized as the primary instructional materials in the math classroom in order to meet the full expectation of this standard.

MOSTLY ALIGNED

Zearn Math curricular resources are mostly aligned to this standard; however, teachers will need to amend instruction to address the part of the standard not covered by Zearn Math. Such amendments should be made within the current Zearn lessons and should not require any additional instructional days.

PARTIALLY ALIGNED

Zearn Math curricular resources are partially aligned to this standard; therefore, it is recommended that teachers use supplemental materials to fully address this specific standard. Additional instructional days may be needed to adequately address this standard.

NOT ALIGNED

Zearn Math curricular resources are not aligned to this standard; therefore, it is recommended that teachers use supplemental materials to fully address this specific standard. Additional instructional days may be needed to adequately address this standard.

⁴Zearn Math includes lessons that target 6(12)(A); however, the Zearn Math lessons do not include stem-and-leaf plots. Teachers will need to amend instruction to ensure students master the full intent of 6(12)(A).

⁵Zearn Math does not include any lessons for Personal financial literacy. Teachers will need to supplement instruction to ensure students master the full intent of 6(12)(A), 6(12)(B), 6(12)(C), 6(12)(D), 6(12)(E), 6(12)(F), and 6(12)(G).

¹Zearn does not include any lessons that require students to classify sets of numbers using visual representations. Teachers will need to supplement instruction to ensure students master the full intent of 6(2)(A).

²Zearn Math includes lessons that target 6(4)(G); however, the Zearn Math lessons do not include money. Teachers will need to supplement instruction to ensure students master the full intent of 6(4)(G).

³Zearn Math includes lessons that target 6(7)(A); however, the Zearn Math lessons do not include prime factorization. Teachers will need to amend instruction to ensure students master the full intent of 6(7)(A).

¹Zearn does not include any lessons that require students to describe relationships between sets of rational numbers. Teachers will need to supplement instruction to ensure students master the full intent of 7(2).

²Zearn Math includes lessons that target 7(6)(E); however, the Zearn Math lessons do not include the complement of an event. Teachers will need to amend instruction to ensure students master the full intent of 7(6)(E).

³Zearn Math includes lessons that target 7(6)(G); however, the Zearn Math lessons do not include bar graphs or circle graphs. Teachers will need to supplement instruction to ensure students master the full intent of 7(6)(G).

⁴Zearn Math's K-8 curriculum does not include lessons focused on finding volume of pyramids, which is explicitly called for by 7(8)(A), 7(8)(B), and 7(9)(A). The content is covered in Zearn Math's high school curriculum, which is currently under development.

⁵Zearn Math includes lessons that target 7(9)(C); however, the Zearn Math lessons do not include the semicircles or quarter circles. Teachers will need to amend instruction to ensure students master the full intent of 7(9)(C).

⁶Zearn Math does not include any lessons for Personal financial literacy. Teachers will need to supplement instruction to ensure students master the full intent of 7(13)(A), 7(13)(B), 7(13)(C), 7(13)(D), 7(13)(E), and 7(13)(F).

¹Zearn does not include any lessons that require students to order a set of real numbers. Teachers will need to supplement instruction to ensure students master the full intent of 8(2)(D).

²Zearn does not include any lessons that require students to solve problems involving direct variation. Teachers will need to supplement instruction to ensure students master the full intent of 8(2)(D).

³Zearn Math includes lessons that target 8(5)(E); however, the Zearn Math lessons do not include mappings. Teachers will need to amend instruction to ensure students master the full intent of 8(5)(E).

⁴Zearn Math includes lessons that target 8(7)(B); however, the Zearn Math lessons do not include finding the surface area of cylinders. Teachers will need to amend instruction to ensure students master the full intent of 8(7)(B).

⁵Zearn Math includes lessons that target 8(8)(A) and 8(8)(B); however, the Zearn Math lessons do not include inequalities. Teachers will need to amend instruction to ensure students master the full intent of 8(8)(A) and 8(8)(B).

⁶Zearn Math includes lessons that target 8(10)(C); however, the Zearn Math lessons do not require algebraic representations of transformations. Teachers will need to amend instruction to ensure students master the full intent of 8(10)(C).

⁷Zearn Math does not include any lessons for Personal financial literacy. Teachers will need to supplement instruction to ensure students master the full intent of 8(12)(A), 8(12)(B), 8(12)(C), 8(12)(D), 8(12)(E), 8(12)(F), and 8(12)(G).
